ride 2 collector bikes pack

Now you can be Tom Cruise on a motorcycle\10. I own a triumph scrambler IRL, so I couldn't skip this pack. That being said, on a racetrack my bike is garbage, in fact its just generally a kind of silly bike. I'm not sur what I was thinking. Whatever, its a good game. Best motorcycle physics I've ever seen in a game, so they can have my money I guess.

EDIT: I tried out the scrambler. I think its worse on the track in game than it is IRL. I got a 9:33 around the Nurburgring. I'm 70% sure I could beat that in real life and my Scrambler has 23k miles on it!. It's an ok pack. The Suzuki and Kawasaki are essentials. The rest are so-so. Definitely one of the slowest collections so far.
